INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
NAMI Georgia, Inc.:

Report on the Financial Statements

We have audited the accompanying financial statements of NAMI Georgia, Inc. (a nonprofit organization), which comprise the statement of financial position as of April 30, 2017, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of NAMI Georgia, Inc. as of April 30, 2017, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NAMI GEORGIA, INC.
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2017

1. Nature of Organization and Significant Accounting Policies

Organization

NAMI Georgia, Inc. (the Organization) is a nonprofit organization incorporated under the laws of the state of Georgia in February 1982. NAMI Georgia, Inc. together with its national affiliate, The National Alliance on Mental Illness, is the nation's largest grassroots mental health organization dedicated to building better lives for millions of Americans affected by mental illness. The goals of The National Alliance on Mental Illness are to: advocate at the county, state and national levels for non-discriminatory access to quality healthcare, housing, education and employment for people with mental illness; educate the public about mental illness; work to eliminate the stigma of mental illness; and advocate for increased funding for research into the causes and treatment of mental illness.

NAMI Georgia, Inc. is a volunteer-driven organization dedicated to empowering its affiliates in educating, advocating for, and supporting persons living with mental illnesses as well as their families. Across the state of Georgia, over 25 affiliates and hundreds of trained volunteers work together to provide peer-led programs and weekly support groups to communities across the state. These programs and support groups provide free education, skills training, and support. These financial statements do not include the accounts of these Georgia affiliates .

The Organization is supported through state and local government grants and contracts as well as contributions from members and the general public.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP), and in accordance with standards adopted by the American Institute of Certified Public Accountants for certain nonprofit organizations. Under this method of accounting, revenues are recognized in the period in which they are earned, while expenses are recognized in the period in which they are incurred.

Financial Statement Presentation

GAAP requires the Organization to report information regarding its financial position and activities according to three classes of net assets: unrestricted, temporarily restricted or permanently restricted net assets described as follows:

Unrestricted net assets – Net assets that are not subject to donor imposed stipulations.

NAMI GEORGIA, INC.
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2017

1. Nature of Organization and Significant Accounting Policies – Continued

Financial Statement Presentation – Continued

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Organization and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Permanently restricted net assets – Net assets subject to donor imposed stipulations that must be maintained permanently by the Organization. As of April 30, 2017, the Organization had no permanently restricted net assets.

Contributions

In accordance with GAAP, contributions are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. All contributions are considered available for unrestricted use, unless specifically restricted by the donor. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Donated Office Furniture and Equipment and Services

All non-cash gifts (other than personal services) are recorded at their estimated fair market value at the date of receipt. Donations of office furniture and equipment are recorded as support at their estimated fair value. Such donations are reported as unrestricted support unless the donor restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire furniture and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed into service as instructed by the donor. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time. For the year ended April 30, 2017, the fair market value of donated office furniture of \$4,800 has been recognized as in kind revenue in the accompanying statement of activities.

A substantial number of volunteers have donated significant amounts of their time to the Organization's programs and supporting services. In accordance with GAAP, if donated services either created or enhanced non-financial assets or required specialized skills which would need to be purchased if not donated, the value of those donated services would be recorded. For the year ended April 30, 2017, the estimated value of donated information technology services was \$2,500 and is reflected in these financial statements as in kind donations.

NAMI GEORGIA, INC.
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2017

1. Nature of Organization and Significant Accounting Policies – Continued

Revenue Recognition

Special events revenue is recognized in the period in which the event is held. Membership dues received in the same year they are due are recognized as current revenue in that year.

Deferred Revenue

Deferred revenue represents the amount of event sponsorships received and relating to the subsequent year. The amounts are recognized as revenue in the year the event is held.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and Cash Equivalents and Concentration of Credit Risk

Cash and cash equivalents consist of cash held in demand deposit accounts. For purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

The balances in the Organization's bank accounts, as reflected in the bank's records, are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 at April 30, 2017. The uninsured portion of bank balances at April 30, 2017 totaled \$406,550.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values with gains and losses included in the statement of activities.

Office Furniture and Equipment, Net

Office furniture and equipment is recorded at cost. The Organization capitalizes property and equipment additions greater than \$500. Depreciation of office furniture and equipment is provided over the estimated useful lives of the respective assets on a straight-line basis as follows:

Furniture	10 years
Office equipment	3 - 10 years

NAMI GEORGIA, INC.
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2017

1. Nature of Organization and Significant Accounting Policies – Continued

Tax Exempt Status

The Organization is exempt from Federal income taxes under the provisions of Section 501(c)(3) of the Internal Revenue Code. Management has analyzed the tax positions taken by the Organization, and has concluded that as of April 30, 2017, there were no uncertain positions taken or suspected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Accordingly, no provision or benefit for income taxes has been recorded in the accompanying financial statements. The IRS Form 990s are subject to examination by the appropriate regulatory authorities for all open years, which typically include the last three years filed.

Functional Allocation of Expenses

The costs of providing the various programs and other activities are summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the various programs and supporting services benefited as required by GAAP.

Advertising Costs

Advertising costs are expensed as incurred.

Reclassification

Certain amounts previously reported have been reclassified to conform to the current year financial statement presentation.

Subsequent Events

Subsequent events have been evaluated through August 31, 2017, which is the date the financial statements were available to be issued, and there were no significant subsequent events.

2. Investments

The Organization classifies its investment assets using a hierarchy of inputs to fair value measurements in accordance with professional standards, as follows:

- Level 1* – Quoted prices in active markets for identical assets or liabilities that the Organization has the ability to access.

NAMI GEORGIA, INC.
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2017

2. Investments – Continued

Level 2 – Inputs to the valuation methodology that are derived principally from or corroborated by observable market data:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs that are unobservable and significant to the overall fair value measurement .

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

At April 30, 2017, the Organization's direct investments in equity securities consist exclusively of investments in exchange-traded companies or mutual funds. Accordingly, the Organization's direct investments in equity security investments are Level 1 investments.

Any investment income or loss (including realized and unrealized gains and/or losses, interest and dividends) is included in the statement of activities as increases or decreases in unrestricted net assets unless restricted by donor or law. Expenses relating to investment revenues, including custodial fees and investment advisory fees have been netted with investment return in the accompanying statement of activities.

Investments of \$24,239 are invested in a large value manual fund at April 30, 2017, and this is all considered to be a Level 1 investment.

Investment Policy

The Organization has adopted investment and spending policies for the prudent investment of its investment assets. The Organization's Board has fiduciary responsibility for directing and monitoring the investment management of the assets. The investment plan is reviewed at least annually to determine whether it is still appropriate. This policy governs asset allocation, diversification and other matters relevant to the prudent investment of assets while considering long-term capital market risk and return.

NAMI GEORGIA, INC.
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2017

3. Contracts and Other Receivables

At April 30, 2017, total contracts and other receivables of \$45,365 consisted of \$44,865 in receivables recorded based on services performed in accordance with various state and local government contracts and \$500 in receivables from contributions and special events revenue. Management believes all of these receivables are collectible in fiscal 2018, and therefore, no allowance for uncollectible accounts has been established.

4. Office Furniture and Equipment, Net

The following is a summary of office furniture and equipment, net at cost as of April 30, 2017:

Office furniture	\$	4,800
Office equipment		57,116
		61,916
Less accumulated depreciation		(52,868)
Total office furniture and equipment, net	\$	9,048

Depreciation expense for the years ended April 30, 2017 is \$1,043.

5. Temporarily Restricted Net Assets

Temporarily restricted net assets as of April 30, 2017 consist of \$5,472 for the Crisis Intervention Team program.

6. Operating Leases

The Organization leases office space and equipment under leases that qualify as, and are accounted for as, operating leases. Future minimum payments under the non-cancelable operating leases are as follows:

Year Ending April 30,		
2018	\$	21,513
2019		21,328
2020		20,093
2021		21,098
2022		16,409
	\$	100,441

NAMI GEORGIA, INC.
NOTES TO FINANCIAL STATEMENTS
APRIL 30, 2017

6. Operating Leases – Continued

In accordance with the office space lease agreement, early termination of the lease requires three months' notice and a termination fee of \$18,000. Rent paid on these leases for the year ended April 30, 2017 was \$21,690.

7. Related Party Transactions

The Organization has agreements with its national affiliate, The National Alliance on Mental Illness, for apportioned membership dues, advertising, training and other assistance as well as for shared contributions and special events revenue. Accordingly, for the year ended April 30, 2017, amounts paid to the national affiliate totaled approximately \$11,000, and amounts received from the national affiliate totaled approximately \$128,000. The corresponding revenues are recorded as contributions, special events – NAMI Walks revenue, and membership dues in the accompanying statement of activities. Corresponding expenses are recorded in the appropriate expense category in the accompanying statement of functional expenses.

The Organization also has agreements with various Georgia affiliates for apportioned membership dues, shared contributions and special events revenue. Accordingly, for the year ended April 30, 2017, amounts paid to the Georgia affiliates totaled approximately \$81,000, and amounts received from the Georgia affiliates totaled approximately \$8,000. The corresponding revenues are recorded as contributions, special events – NAMI Walks revenue, and membership dues in the accompanying statement of activities. Amounts collected by the Organization and reimbursed to the affiliates for their share of membership dues, contributions and NAMI Walks special events revenue represent agency transactions and are not recorded in the accompanying statement of activities. At April 30, 2017, there was \$10,456 due to the Georgia affiliates, which is recorded as payables to affiliates in the accompanying statement of financial position.

8. Commitments and Contingencies

For the year ended April 30, 2017, the Organization received approximately 80% of its current year revenue through state and local government funding. A significant reduction in the level of this support could have an adverse effect on the Organization's programs and activities. Receivables arise from reimbursements owed through these government contracts, and the Organization's ability to collect amounts due is affected by the outside agencies' acceptance of reimbursable expenses and performance-based outcomes which meet contract requirements. Grant receivables from government contracts totaled \$44,865, as further described in Note 3. Further, certain state and locally funded programs are routinely subject to monitoring and inspection requirements as stipulated in the contracts. Such agencies have the authority to determine liabilities as well as to limit, suspend, or terminate the programs. Since the Organization does not expect claims to arise as a result of such procedures, no provision for liabilities has been provided in the financial statements.
